

# CLARIFICATION, 21 AUGUST 2017

## APPLICABLE IMMEDIATELY

### ACEA OIL SEQUENCES 2012

#### ELASTOMER COMPATIBILITY:

The following new footnotes 1.10 and 1.8 replace respectively the existing footnotes 1.10 and 1.8 to the ACEA oil sequences 2012.

**Footnote 1.10. This footnote is applicable to Categories A3/B3, A3/B4, A5/B5 and C1, C2, C3, C4:**

No. 1.10 Test CEC L-039-96 may continue to be used for ACEA 2012 under the condition that a full L-039-96 data set including RE<sub>1</sub>, RE<sub>2</sub>, RE<sub>3</sub> & RE<sub>4</sub> and the Daimler DBL-AEM (requirements as specified by Daimler AG) is generated and provided all other requirements as specified in ACEA 2012 are met. Should a full data set according to CEC L-039-96 not be available, complete data according to CEC L-112-16 must instead be generated.

**Footnote 1.8. This footnote is applicable to Categories E4, E6, E7 and E9:**

No. 1.8 Test CEC L-039-96 may continue to be used for ACEA 2012 under the condition that a full L-039-96 data set including RE<sub>1</sub>, RE<sub>2</sub>, RE<sub>3</sub> & RE<sub>4</sub> and the Daimler DBL-AEM (requirements as specified by Daimler AG) is generated and provided all other requirements as specified in ACEA 2012 are met. Should a full data set according to CEC L-039-96 not be available, complete data according to CEC L-112-16 must instead be generated.
